# Large-Flowering Dutch Hyacinths

## EXHIBITION-SIZE BULBS

These fine-quality bulbs may be grown in pots, glasses, or outdoors in the garden. They will produce very large, compact spikes of bloom.

**Bismarck.** Delicate light blue.

**City of Haarlem.** Bright golden yellow.

**Duchess of Westminster.** Dark pansy-blue.

**King of the Blues.** Deep glossy blue.

**Lady Derby.** Delicate pink.

**La Victoire.** Carmine-red.

**L'Innocence.** Pure white.

**Mme. Kruger.** Snow-white.

**Myosotis.** Light forget-me-not-blue.

**Orange Boven.** Orange-yellow.

**Pink Pearl.** Rosy pink.

**Queen of the Pinks.** Dark pink.

**3 for \$1.00; 12 for \$3.60; 25 for \$7.00**

## BEDDING HYACINTHS

Hyacinths were so very scarce for a number of years that it is especially good to welcome them to the garden again. These bedding-size bulbs will give an excellent effect in one-color or multi-color beds. They also may be combined in plantings with other spring bulbs, giving magnificent flower trusses on strong stems.

**Snow-White.** 12 for \$2.20

**Soft Pink.** 12 for \$2.20

**Bright Red.** 12 for \$2.25

**Sky-Blue.** 12 for \$2.20

**Dark Blue.** 12 for \$2.25

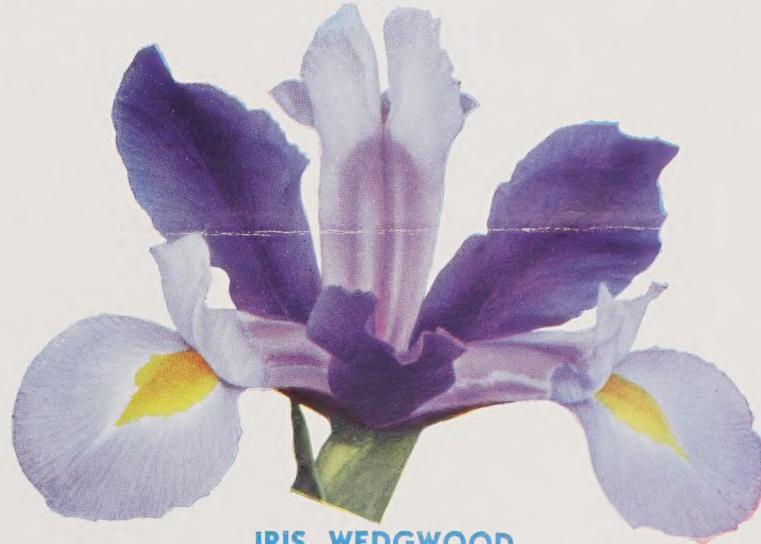

**RAINBOW MIXTURE OF BEDDING HYACINTHS.** A good mixture of the most outstanding colors for group planting. 12 for \$2.15; 25 for \$4.25; 100 for \$16.75.

## DUTCH IRIS

This is the most satisfactory of all the spring-flowering Iris. The large flowers, borne on strong stems, are very fine as cut-flowers but are also effective in beds and borders in the garden. For best effect plant them close together in groups of five or more. They follow the May-flowering tulips in blooming season. Dutch Iris may be left in the ground for years if planted in a sunny location.
